## THE ASSOCIATION OF ACCOUNTING TECHNICIANS OF SRI LANKA EDUCATION AND TRAINING DIVISION

## AA3 Examination - January 2019 (AA 31) Financial Accounting and Reporting SUGGESTED ANSWERS

SECTION A
Four (04) compulsory questions.
(Total 20 marks)

## Suggested Answers to Question 01:

## Chapter 01 - Conceptual Framework for Financial Reporting

a) Under financial capital maintenance, the profit is earned when the net assets at the end exceeds the net assets at the beginning after adjusting for contribution and distributions.
Under Physical capital maintenance, the profit is earned when the net productive capacity at the end exceeds the net productive capacity at the beginning after adjusting for contribution and distribution.

Main differentiation is that, the financial capital maintenance considers the capital at the nominal monetary value and any excess over the capital is considered as profit. The physical capital maintenance considers at the productive capacity term and only the increase in productive capacity is considered as profit and not the price changes of assets and liabilities.
(03 marks)
b) Net Assets = Net Assets at End - Net Assets at Beginning - Additional Capital + Drawings $=4,500,000-3,200,000-1,000,000+500,000$

Profit $=\underline{\underline{800,000 /-}}$
(02 marks)
(Total 05 marks)

## Suggested Answers to Question 02:

## Chapter 02 - Regulatory Framework

a) A sustainability report is an organizational report that gives information about economic, environmental, social and governance performance.

A sustainability report is a report published by a company or organization about the economic, environmental and social impacts caused by its everyday activities. A sustainability report also presents the organization's values and governance model, and demonstrates the link between its strategy and its commitment to a sustainable global economy.
(03 marks)
b)

1. It allows the organization to benchmark and assess sustainability performance.
2. It allows the organization to compare the performance with different organizations.
3. Holistic view of risk and opportunities.
4. Emphasizing the relationship between financial and non financial performance.
5. Benchmarking sustainability performance with respect to laws, norms, codes, performance standards and voluntary initiatives.
6. Assessment on the basis of benchmark set.
7. Improving reputation and brand image of the company.
8. Demonstrating how an organization can bring change by sustainable development.
9. Enabling external stakeholders to understand the organizations intrinsic value.
(02 marks)
(Total 05 marks)

## Suggested Answers to Question 03:

## Chapter 03 - Part II - Accounting Standards

a. Where the items are identified and invoiced then it is the time the sale contract is made. In this case, SHL has transferred risks and rewards to the customer. Therefore, sale of Rs. 7.5 Million should be recognized as revenue for the year ended 31st March 2018.
b. The dividend shall be recognized, when the right to receive the dividends were established. On 30.03.2018 at the AGM the right to receive dividend was established. Therefore, the dividend shall be recorded in the financial year 2017/18
c. The revenue arising from rendering of services will be recognized on a straight-line basis, as the service is for 4 year, SHL can use degree of completion and recognize the revenue, as follows;

DOC $=150,000 / 600,000 \times 100 \quad=\mathbf{2 5 \%}$
Therefore Revenue will be $\quad=1,000,000 \times 25 \% \quad=\mathbf{2 5 0 , 0 0 0}$
Rs. 250,000/- shall be recognized as revenue for the year ended 31st March 2018.

## Suggested Answers to Question 05:

## Chapter 06 - Financial Statement Analysis

| To | - Chief Financial Officer |
| :--- | :--- |
| From | - Financial Accountant |
| Subject | - Financial Performance |

I'm pleased to submit the report regarding financial performance of Eco Protect (Pvt) Ltd for the year ended 31.03.2018. This report is structured in a way to cover the profitability, efficiency and robustness of working capital management of the Company. I have used draft and audited financial statement and used the industry average ratios to assess the efficiency and effectiveness of the Company.
Eco protest has recorded a gross profit margin of $33 \%$ and it was $40 \%$ in the industry. Even though there is an increase in the cost of sales, profit margin has slightly increased by $2 \%$ over the previous year due to increase in turnover by $10.6 \%$.

The burden on the NP Margin could be due to increased sales commission, bad debts and debt recovery cost.

It is clearly evident that Eco protect was very much efficient in managing their capital. Therefore, the company shows an increase in ROCE comparing with the industry though PBIT shows a decline.
Increase in stock tunrover comparing with industry show an improvement in stock holding. This shows the efficiency of the business to convert stock into sales.
Debtors Turnover Ratio and Debtors Collection Ratio show a similar situation in both company and industry.

After the detailed analysis, we can conclude that Eco Protect (Pvt) Ltd is focused to increase the market share through market penetration, pricing and has succeeded. Following recommendation may assist the management in securing the margins as well,

1. The management may consider market segment and price the product accordingly.
2. Control the trade discounts to permitted limits
3. If appropriate, consider factoring of debtors

I make myself available for any explanation in this regard,

Thanking You

Current Ratio $=$ Current Assets $/$ Current Liabilities

$$
\begin{array}{ll}
=66,850 / 26,900 & =35,600 / 17,900 \\
=\underline{\underline{\mathbf{2 . 4 8} \mathbf{1}}} & =\underline{\underline{\mathbf{1 . 9 9}: \mathbf{1}}}
\end{array}
$$

b)

## ICL

Gearing Ratio $=$ Loan Capital $/$ Equity Capital

$$
\begin{array}{ll}
=(10,200+5,200) /(15,750+82,000) & =5,500 / 26,700 \\
=\underline{\mathbf{1 5 . 7 5 \%}} & =\underline{\mathbf{2 0 . 6 \%}} \\
\hline
\end{array}
$$

c)

ICL
TL
Creditors
Turnover Ratio $=$ Credit Purchases $/$ Average Purchases

$$
\begin{array}{ll}
=(64,000 \times 80 \%) /(12,000+13,100) / 2 & =(36,000 \times 80 \%) /(6,000 \times 8,000) / 2 \\
=51,200 / 12,550 & =28,800 / 7,000 \\
=\underline{4.08} \text { times } & =\underline{4.11 \text { times }}
\end{array}
$$

## End of Section C

## Notice :

These answers complied and issued by the Education and Training Division of AAT Sri Lanka constitute part and parcel of study material for AAT students.
These should be understood as Suggested Answers to question set at AAT Examinations and should not be construed as the "Only" answers, or, for that matter even as "Model Answers".
The fundamental objective of this publication is to add completeness to its series of study texts, designs especially for the benefit of those students who are engaged in self-studies. These are intended to assist them with the exploration of the relevant subject matter and further enhance their understanding as well as stay relevant in the art of answering questions at examination level.
